EDUCATION

Yeshwantrao Chavan College of Engineering, Nagpur
BTech - Electronics Engineering- CGPA 7.20

jun 2020 – May 2024
nagpur, india

New English Junior College, Wardha
HSC - 12th - 63.69

2018 – 2020
Wardha, india

COURSEWORK / SKILLS

- | | | | |
|----------------------------|---------------|--------------------|--------------------|
| • React.js. | • MongoDB. | • Javascript ES6+. | • springboot. |
| • AWS(Cognito user pools). | • postgresQL. | • Git. | • Google Firebase. |
| • Jenkins. | • angular. | • Github. | • Spinnaker. |
| • AWS lambda, lightsail. | • node.js. | • CSS, HTML. | • Kubernetes. |
| • Docker. | • .NET. | • C++, C language. | • jasmine. |
| | • Express.js. | • Java. | |

EXPERIENCE - 2 Years

software developer

jan 2024 – feb 2026

CODEREACH SOFTWARE pvt. Ltd. Pune, Maharashtra

- Architected and delivered scalable full-stack applications using React.js, React Native, Node.js, and Express.js, serving cross-platform web and mobile users with high performance and 99 percent + uptime
- Designed and owned RESTful API infrastructure backed by PostgreSQL and MongoDB, enabling real-time data interactions and reducing query latency by optimizing indexing, connection pooling, and caching strategies.
- Implemented real-time bidirectional push notification systems using Firebase Cloud Messaging (FCM), enabling instant driver-customer communication with sub-second delivery at scale.
- Engineered secure OTP-based authentication and SMS workflows by integrating MSG91 APIs, hardening identity verification across the user onboarding pipeline.
- Built a cloud-native document upload and lifecycle management system using Cloudinary and AWS S3, reducing driver onboarding time by automating document verification and storage workflows.
- Deployed and maintained production services on AWS (Lightsail, Lambda), managing server provisioning, monitoring dashboards, and zero-downtime deployments using Docker and CI/CD pipelines with Jenkins and Spinnaker.
- Integrated AWS Cognito User Pools for enterprise-grade authentication, supporting OAuth2 flows, MFA, and role-based access control across services.
- Contributed to Angular and .NET / C modules in cross-functional codebases, ensuring consistent business logic and shared service contracts across the backend stack.
- Championed engineering best practices across the team: typed interfaces with TypeScript, feature branching via Git/GitHub, peer code reviews, and agile sprint ceremonies in a fast-paced product team.

PROJECTS

Smart Document Based Chatbot | [react](#), [python](#), [rag](#)

2025

- FinanceBot is an intelligent web application that uses advanced AI to analyze financial documents, extract key insights, and provide comprehensive reports. Perfect for investors, analysts, and anyone needing to understand financial documents quickly and accurately.
- used python, react, Rag pipeline, VectorDB, you can check [My Portfolio](#) for live demo

Chat-Gpt model | [react.js](#), [Open AI](#), [express.js](#), [node.js](#)

2026

- Built a full-stack AI chat application enabling real-time interaction with a Large Language Model (LLM) through API integration.

- Developed RESTful APIs using Node.js and Express.js to process user prompts and manage AI-generated responses.
- Integrated MongoDB with Mongoose to store chat threads and maintain structured conversation history.
- Implemented a scalable modular architecture separating frontend, backend, and AI integration layers for maintainability and performance.

landingPage  | TypeScript, TailwindCSS, ShadCN/UI, Radix UI, Framer Motion

2025

- Developed a responsive landing page using React (TypeScript), TailwindCSS, and ShadCN/UI, ensuring optimized performance and accessibility across devices

Simon Says Game  | HTML, CSS, JavaScript

2022

- Created an interactive memory-based game using JavaScript, CSS, and HTML.
- Designed dynamic tile animations and user input handling with progressively increasing difficulty. you can check [My Portfolio](#) for live demo

EXTRACURRICULAR

EESA	EESA – Publicity Member (Sep 2023, YCCE Nagpur)
EESA	EESA – Event Management Member (Sep 2024, YCCE Nagpur)
YASH	YASH – Publicity Co-Head (Mar 2024, YCCE Nagpur)

CERTIFICATIONS

- C Language Certification – Udemy (2022)
 - Certification – Google Play Academy (2022)
- Google Play Store Listing
